Dear Mr. Kahle:

With the "information highway" forever changing the way we do business, the decisions you make in the next year will determine how much your organization will profit in the next decade.

That's why I want to personally invite you to the first event that showcases actual real-time, working technology that makes the information highway a reality.

Please join me for an hour on January 18th. We'll hear from some of the country's most visionary leaders as they discuss how the information highway will radically alter the way products and services are marketed and distributed.

You can attend the event at the CBS Television Studio in Hollywood, or in New York, Washington DC, or Tokyo. The issues are vital to your success -- and I believe it will be an excellent investment of your time. Please mark your calendar.

Sincerely,

Lawrence J. Ellison
President and Chief Executive Officer

P.S. Within the next few weeks you'll receive a formal invitation. I hope you'll be able to join us.
